

*“My son attended Camp Invention last summer. It was the best [program] money can buy. It fostered a love for making inventions and solving problems while learning science. It was fun, academic, and life-changing, as he has learned to LOVE science. This program is for all kids — those who love science and those who haven’t found that excitement yet.”*

*– Parent of Camp Invention Participant*

## UNLEASHING CREATIVE GENIUS... ONE CHILD AT A TIME

It’s amazing how quickly summer approaches. Before you know it, the school year will be nearing its end, and children will be anxiously awaiting the fun and excitement of the summer months.

This summer, Invent Now Kids proudly presents the Camp Invention program – a safe, innovative experience for children to extend school year learning through fun, hands-on activities that promote 21st century learning skills. This unique opportunity allows children to explore the unknown, tinker with ideas, and satisfy an innate sense of curiosity as they work in teams to solve real-world challenges and realize problem solving as a portal to discovery.

*“The Camp Invention experience empowers children to create and discover – giving them critical-thinking skills that benefit them both in school and in life.”*

*– Dr. Cindy Moss, Science and Math Curriculum Director, Charlotte-Mecklenburg School District*

- Saving Sludge City™
- Global Games™
- I Can Invent III™

# 2010 CAMP INVENTION LOCATIONS

## COMING TO: Blessed Teresa of Calcutta Education Center

256 Swamp Pike, Limerick Township  
Aug. 2-6, 9:00am-3:30pm

*Science and creativity enrichment  
for girls and boys entering grades 1-6*

### SAVE \$25!

Register with a friend for only \$185 each!

Use Promo Code: **BAFD** Base Price: \$210

**The Innovate Curriculum:** *Children attend 5 different classes each day.*

#### Power'd™

It's alive! In a secret lab, build your own motorized creature and learn about alternative sources of energy while helping a mysterious scientist harness the power of nature.

#### Hatched™

The Hatched online virtual world is disappearing! Help rebuild the Hatched world and become an entrepreneur in the avatar marketplace.

#### SMart: Science, Math & Art™

What do soap bubbles, honeycombs, and lightning bolts all have in common? Discover the fun side of math with tessellations and fractals in the Pattern Kingdom.

#### I Can Invent III™

Take apart a broken machine and see what's inside. Younger children will create fantasy inventions, while older groups will work on a team Rube Goldberg challenge that creates a "mini-explosion".

#### Global Games™

Explore cultures from around the world by discovering the link between ancient games and those we play today. Then add your own twist and get ready to play!
